THE Tweed community is invited to have their say on the Tweed Sand Bypassing Project ahead of the 2024 expiry of a project agreement between NSW and Oueensland. Member for Tweed Geoff Provest said community consultations were being held to get feedback to help shape plans for the project's future operation. "Tweed Sand Bypassing has been part of the Tweed and southern Gold Coast community for nearly twenty years," Mr Provest said. "It was created for the community to ensure safe boating access to the Tweed River and to restore and maintain the natural supply of sand to the southern Gold Coast beaches for all to enjoy." Jodie Callcott 23/12/2019
